

Senior Transportation Engineer **Kingston or Belleville Office**

Position Description:

Ainley Group is currently seeking a Senior Transportation Engineer to join our Kingston or Belleville Office. As the successful candidate, you will use your technical abilities to plan and design all aspects of transportation networks in a dynamic design team setting. The specifics of the position are as follows:

Responsibilities and Duties:

- Manage the preliminary and detailed designs and oversee the construction administration associated with highway design projects for the Ontario Ministry of Transportation and municipalities throughout Ontario;
- Lead local and regional teams in the preparation and submission of expressions of interest and proposals to source new highway design projects;
- Supervise other designers and technical support staff engaged in the design of highways;
- Assisting with the training, mentoring, assessing and recruiting staff;
- Liaise with Clients, Sub-consultants, Contractors and construction supervision staff;

Qualifications:

- Professional Engineer (P.Eng.) licensed in Ontario with a minimum of 12 years of relevant experience in a Design Office in Ontario;
 - Established, good reputation with the Ontario Ministry of Transportation (MTO) and municipalities of Ontario
 - Experience in planning, preliminary design, detailed design, and construction administration associated with new and/or the rehabilitation of divided highways, arterial and collector roads;
 - Experience with the MTO Design Standards, Specifications, Policies, Practices and Processes along with MTO's Highway Costing System (HiCo) and Contract Preparation System (CPS) is essential;
 - Independent, Organized and Motivated Team player with excellent oral and written communication skills;
 - Ability to prioritize multiple responsibilities and projects.
-
